Опис резюме

I have a master's degree in management, with specialization in Management of Organizations and Administration of Tourism and Hotel Business and wide experience in copywriting, food and beverages, taken a part in various volunteering projects in Poland and Ukraine. I have the knowledge of stressful working, by pressure of dead-lines, during writing, publishing an articles and reviews. I'd raised flexibility to frequently changing of working conditions and become adaptive and open-minded person. Now I'm working at the hotel lobby-bar as a bartender. I'm strong-motivated to develop myself by new experience and realize personal abilities that I already have. I've learned how to unconstrainedly get into touch with people at work and rapidly decision-making under stress.
